

# The ETU Manifesto

The ETU model is based on  
five principles that make up  
our Manifesto:

[www.etuinitiative.com](http://www.etuinitiative.com)  
[www.renewable-energies.interreg-med.eu](http://www.renewable-energies.interreg-med.eu)

## Holistic response to climate change

The ETU Initiative identifies climate change mitigation and adaptation actions, while addressing the regions' needs and aspirations.

## Territorial equity

Implementing the ETU model boosts energy cooperation between rural and urban areas.

## Social innovation

The ETU governance model empowers communities to lead the energy transition in their region.

## Green economy

Integrating the ETU model into territorial planning creates alternative livelihood sources and opportunities for local residents.

## Cooperation & Commitment

The ETU promotes multilevel governance for territories to identify their own potential.

**Together we'll create a resilient future**
